

LESSON 10

Aggregate Functions

- ① SUM (Σ)
- ② COUNT (Σ)
- ③ MIN (Σ)
- ④ MAX (Σ)
- ⑤ AVG (Σ)

rows in a column
 performs a calculation and returns
 a single value

We put the column name

GROUP BY

we group data into categories

HAVING

help us to filter data
 that is grouped

Syntax of HAVING

SELECT AGG. FUN (column) AS new column name,
 categorical. column
