

DATA ANALYTICS

Data & Information collected that is true.

first party data

(Data you collected
by yourself) or you generate
yourself

3rd party

Data you get from
someone else

forms of Date

Structured Data

(Organised data)

(Data with a known format or structured format)

Dieter took a shower

Data in tables such as excel

A hand-drawn diagram of a rectangular frame. It consists of two horizontal lines and two vertical lines, creating a grid of four rectangular sections. The lines are drawn with a pen or marker, and the overall shape is slightly irregular, suggesting a sketch.

Unstructured data

• Date without a format

- No specific format

eg music, video, photo

Call, voice note, Pdf

document photos

* Why Data (structured data still have a problem)
The Data might have too much information

2. The Data might have too much information

10 million rows

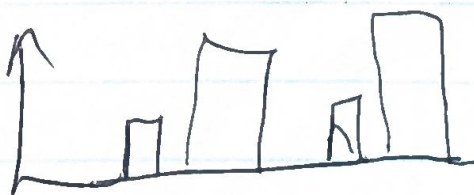

100 columns

(we use it to clean structured data)

SQL (structured Query language)

Aggregate it.
Summarise what you need
