

Table Customers	Customer ID	Name	Total Spend
	1	John	200 Yes
	2	Mark	150 No
	3	Timbo	100 No
	4	Lerato	200 Yes

① Average spend $\Rightarrow \text{AVG} = \frac{\text{Total Spend}}{\# \text{ Customers}}$

$$= \frac{650}{4} \rightarrow \underline{\underline{162.5}}$$

② Filter by the average { John, Lerato }

Select customer ID, Name, Total_Spend
 From Customers
 Where Total_Spend > (select AVG (Total_Spend)
 From customers);
