

③ Contextual prompting  
You give background information

④ Constraint-based prompting  
- You limit the response

- Restriction based

- Controlling the kind of output you want from the

- Limiting the scope of the output

Q6/05/2024 How do we build AI Lesson 3 Augmented with AI

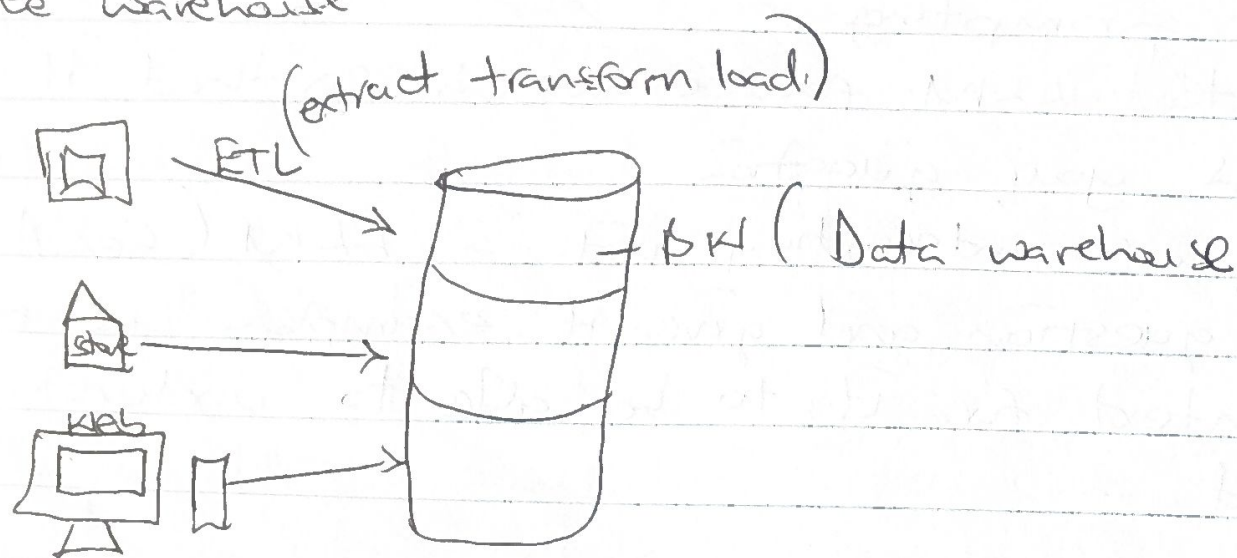

### Machine Learning Process

- The outcome of a machine learning process in an AI to system

- In order to build a machine learning model - we need data

The role of the Data Engineer is to make the data available in the data warehouse.

Data Engineer Build data pipelines to store the data in the warehouse

step ① Data Collection

step ② Stakeholder: Define the problem  
Before building AI/ML solution we need to define the problem we are trying to solve
