

Q1

Lethabo	No
Mali	Yes
Tumi	Yes
Thato	Yes

Lesson 4:

Machine learning: Data Collection & Preparation

The Concept of Machine learning

AI is an intelligence that is artificially generated meaning that intelligent has to be trained from somewhere

- Somewhere is Data

How do we build our way machine learning?

We build the machine learning

We build our way to machine learning by having data

Data Analytics produce Dashboard, Table, Reports

* Whenever you purchase something you are generating data
